(Please do not reproduce CV)

1. Describe yourself in your words

I am passionate about learning new things and growing my skill sets and experience. I would say that I'm creative, hard-working, and detail oriented. I think that I'm an analytical, dependable, and responsible person.

2. Take an account of your journey in life so far, your education, experiences.

I'm graduated from UET Taxila in computer science. In my university period I worked with Comptech society as Event coordinator. I took part in different sports like Cricket, Basketball. i was a captain of department cricket team. I'm working with different charity society who work for the education of needy and poor people. I managed different departmental society projects like 2k19 orientation organization and Hackathon etc. I'm working as a freelancer on different platform like Fiverr and Upwork. I'm providing different services like database administrator, php Laravel, web development etc.

3. What do you understand by the position being offered?

My professional experiences, coupled with my good communication skills, work ethic, and friendly attitude, makes me a perfect fit for the job. I have the experience to start contributing to your team from day one. Needless to say, I'm very excited about the prospect of starting in your organization.

Current Salary 40K, expected Salary: 50K+, After 2 year from now 200K.

5. Your goals [short term, medium term, long term] both personal and professional.

Short term goal: working in development field.
Medium term: Setup own Business.
Long term: become a Billionaire
